***START SMALL
AND GROW FAST.
WELCOME TO
ENTERPRISE ANY-SIZE.***

A photograph with a warm, orange-toned filter showing two men in a crowded room, likely a conference or workshop. One man is seated at a table with a laptop, while the other stands beside him, leaning over to look at the screen. The man standing is wearing glasses and a dark t-shirt with a keyboard graphic. The man seated is also in a dark t-shirt and has a beer bottle on the table in front of him. The background is filled with other people, some blurred, suggesting a busy event.

284.874 LOC* ADDED

A woman with long brown hair and glasses is looking intently at a laptop screen. She is wearing a light-colored t-shirt. The scene is dimly lit, with a warm, orange glow. In the background, other people are blurred, suggesting a busy office environment. A man's profile is visible on the left side of the frame.

***HIGHLIGHTS OF
TYPO3 v10 LTS***

General System Information News Documentation

- Number of errors in system log**
Shows the number of errors in the sys log of the last month, grouped by date
- Failed backend logins**
Information about the number of failed logins during the last 24 hours.
- Type of backend users**
Shows the amount of normal- and admin-users

Use predefined widgets or build your own.

- Quick overview of important system information and statuses
- Information summary is displayed in widgets
- A wide range of types and styles are available out of the box
- Customize and extend own widgets
- Configure multiple dashboards and easily switch between them

HTML-BASED TEMPLATED EMAILS

IMPLEMENT CUSTOMIZED
EMAIL TEMPLATES FOR
TYPO3 CORE EMAILS.

TYPO3 Test Mail

Hey TYPO3 Administrator

Seems like your favorite TYPO3 installation can send out emails!

This email was sent by TYPO3 from URL: <https://typo3.cms.ddev.site/> - Please contact your site administrator if you feel you received this email by accident.

TYPO3 CMS. Copyright © 1998-2020 Kasper Skårhøj. Extensions are copyright of their respective owners. Go to <https://typo3.org/> for details. Configure Installation-Wide Options

Modified values are written to LocalConfiguration.php. The optional file AdditionalConfiguration.php is not controlled by the TYPO3's core and may override certain settings. Administrators must maintain AdditionalConfiguration.php manually and should be used with caution.

Filter by:

Backend [BE]

[BE][cookieSameSite] = strict

Indicates that the cookie should send proper information where the cookie can be shared (first-party cookies vs. third-party cookies) in TYPO3 Backend.

Extension Installation [EXT]

Frontend [FE]

[FE][cookieSameSite] = lax

Indicates that the cookie should send proper information where the cookie can be shared (first-party cookies vs. third-party cookies) in TYPO3 Frontend.

Image Processing [GFX]

Connection [HTTP]

Mail [MAIL]

Improved User's Privacy with SameSite Cookies

- Define whether to share certain information (e. g. session cookie) with third-party sites if scripts or iframes are used on a site for example
- Frontend session cookies are set to “SameSite=Lax”
- Backend session, Install Tool session and workspace cookies are set to the more restrictive “SameSite=Strict”
- The SameSite cookies feature has also been implemented in TYP03 v8 and v9

Frontend login – fluid-based template

Successfully updated feature toggles

- Dashboard
- Web
- Blog
- Site Management
- File
- Admin Tools
- Maintenance
- Settings
- Upgrade
- Environment
- Extensions
- System

Settings

Feature Toggles

- If on, session data is kept in an anonymous session after frontend user logged out. As this is a potential security risk, it is recommended to disable this option if not specifically needed.
Default setting: Disabled
- Rearranged redirect middlewares**
 If on, the middlewares "base redirect" and "redirects" are switched, so that "redirects" (if ext:redirects is installed) is executed before "base redirect". The new ordering aims to be a better default shipped by the TYPO3 core.
Default setting: Disabled
- Felgin: extbase**
 If activated, and if extension "felgin" is loaded, extbase based code will be used instead of pibase version
Default setting: Disabled

Save

Configuration Presets

Global Configuration

Configure image processing, debug/live mode and mail settings.

Choose Preset

Frontend login – feature toggle

- Fluid enables the modification of templates more easily
- Send out HTML-based password recovery emails
- Adjust and modify validators to enforce password restrictions

EVENT DISPATCHER: MORE PSR-14 EVENTS

DEVELOPER JOY THROUGH
STANDARDIZATION

Visual Studio Code interface showing the configuration of a PSR-14 Event Listener in a TYPO3 CMS project. The Explorer sidebar on the left shows the project structure, with the 'Services.yaml' file selected under the 'Configuration' directory. The main editor displays the content of 'Services.yaml' with line numbers 1 through 26. The code defines several services, including a factory for 'TypoScriptFrontendController' and a tag for 'FileMetadataOverlayAspect'.

```
1 services:
2   - _defaults:
3     - autowire: true
4     - autoconfigure: true
5     - public: false
6
7   - TYPO3\CMS\Frontend\:
8     - resource: '../Classes/*'
9
10  - TYPO3\CMS\Frontend\Controller\TypoScriptFrontendController:
11    - factory: ['TYPO3\CMS\Frontend\Controller\TypoScriptFrontendController', 'getGlobalInstance']
12    - shared: false
13    - autoconfigure: false
14    - autowire: false
15
16  - TYPO3\CMS\Frontend\ContentObject\ContentObjectRenderer:
17    - public: true
18    - shared: false
19
20  - TYPO3\CMS\Frontend\Aspect\FileMetadataOverlayAspect:
21    - tags:
22      - name: event.listener
23        - identifier: 'typo3-frontend/overlay'
24        - method: 'languageAndWorkspaceOverlay'
25        - event: TYPO3\CMS\Core\Resource\Event\EnrichFileMetaDataEvent
26
```

PSR-14 Event Listeners

```
# EXT:my_extension/Configuration/Services.yaml
services:
  Vendor\MyExtension\EventListener\RteConfigEnhancer:
    tags:
      - name: event.listener
        identifier: 'ext-myextension/rteConfigEnhancer'
        method: 'beforeGetExternalPlugins'
        event: TYPO3\CMS\RteCKEditor\Form\Element\Event\BeforeGetExternalPluginsEvent
      - name: event.listener
        identifier: 'ext-myextension/rteConfigEnhancer'
        method: 'beforePrepareConfiguration'
        event: TYPO3\CMS\RteCKEditor\Form\Element\Event\BeforePrepareConfigurationForEditorEvent
```

```
<?php
// EXT:my_extension/Classes/EventListener/RteConfigEnhancer.php
namespace Vendor\MyExtension\EventListener;

use TYPO3\CMS\RteCKEditor\Form\Element\Event\BeforeGetExternalPluginsEvent;
use TYPO3\CMS\RteCKEditor\Form\Element\Event\BeforePrepareConfigurationForEditorEvent;

class RteConfigEnhancer
{
    public function beforeGetExternalPlugins(BeforeGetExternalPluginsEvent $event): void
    {
        $data = $event->getData();
        // @todo make useful decisions on fetched data
        $configuration = $event->getConfiguration();
        $configuration['example_plugin'] = [
            'resource' => 'EXT:my_extension/Resources/Public/CKEditor/Plugins/ExamplePlugin/plugin.js'
        ];
        $event->setConfiguration($configuration);
    }

    public function beforePrepareConfiguration(BeforePrepareConfigurationForEditorEvent $event): void
    {
        $data = $event->getData();
        // @todo make useful decisions on fetched data
        $configuration = $event->getConfiguration();
        $configuration['extraPlugins'][] = 'example_plugin';
        $event->setConfiguration($configuration);
    }
}
```

- Hooks and the Signal/Slot concept is one of TYPO3's superpowers
- Introducing PSR-14 events standard
- Extend the core and system functionality more efficiently
- Easier for new developers to get up-and-running and familiar with TYPO3
